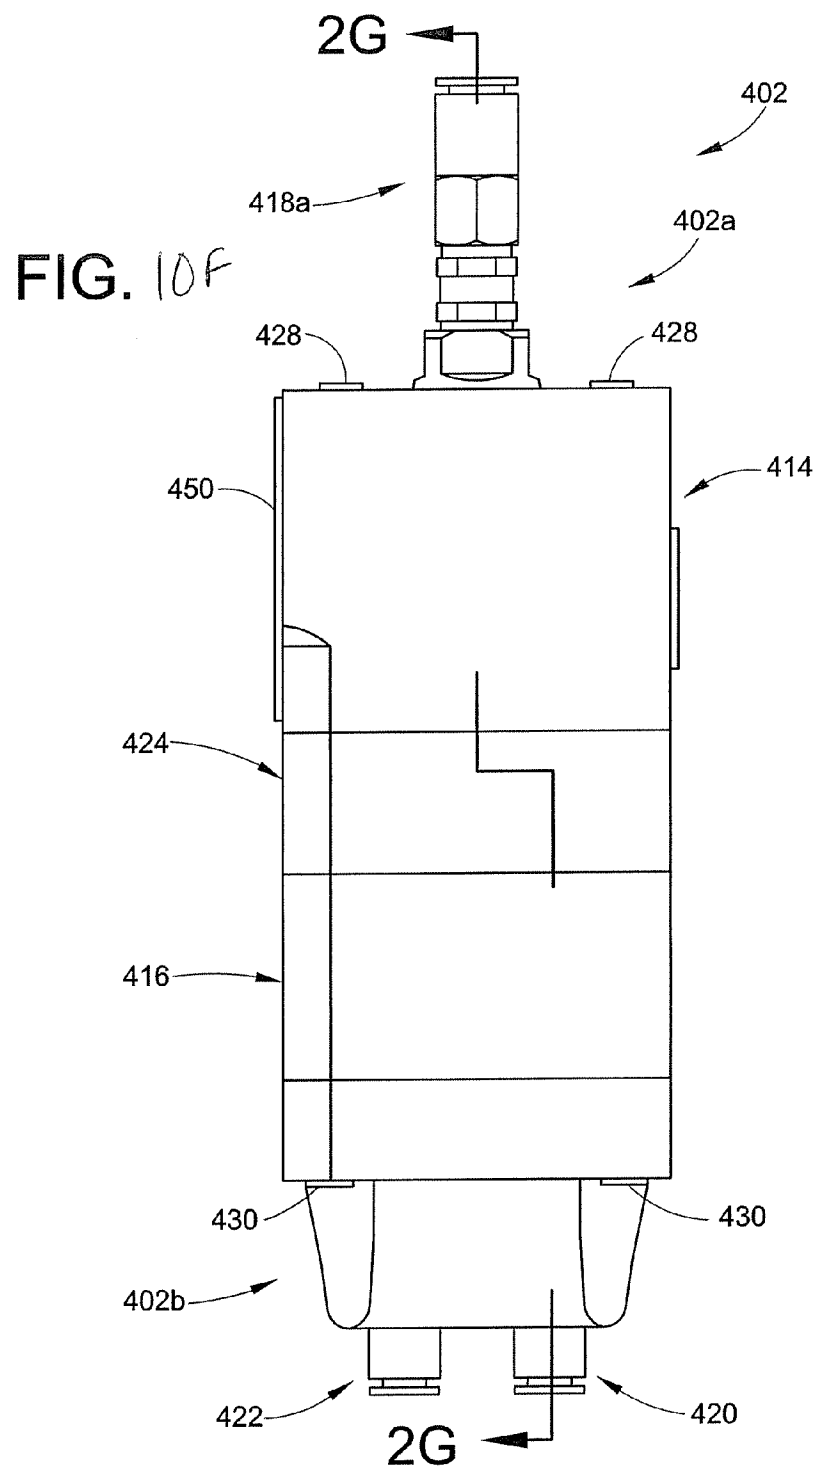

**FIG. 10E**

FIG. 10E is a cross-sectional view of a mechanical assembly. The assembly includes a central shaft (402) passing through a series of components. At the top, there is a flange (508) and a seal (418a). Below this is a component (506) with a central opening. The shaft passes through a block (504) which has two small protrusions (528) on its top surface. The shaft then passes through a block (450) which has a horizontal slot (442e) and a vertical slot (444e). Below this is a block (459) with a central opening. The shaft passes through a block (452) which has a central opening (452a) and a side opening (452b). Below this is a block (466) which has a central opening (482) and side openings (446a, 480). The shaft passes through a block (416) which has a central opening (484) and side openings (446b, 481). Below this is a block (479) which has a central opening (482) and side openings (446a, 480). The shaft passes through a block (498a) and (498b) which have side openings (422, 420). The shaft ends in a component (402) at the bottom.
